AIMST University

BEGINNER TO
INTERMEDIATE
LEVEL

CPD points:
pending

- Using advanced rotary files
- Each participant takes away files worth RM 520
- Chance to use microscope
- Down-pack and Backfill obturation

Prizes from
LUCKY DRAW

Dr Rahul Rathi

BDS, MDS Endodontics (Manipal)
Faculty at AIMST, Malaysia

Program Facilitator:

Dr Rahul Rathi (MDS in Endodontics) is an Endodontist with a vast experience in his field. He has credit of thousands of successful endodontic cases, involving the retreatment of hopeless teeth. He holds a Bachelor of Dental Surgery (BDS) and Master of Dental Surgery (MDS) from Manipal University, India. Previously, he has worked as faculty in dental schools in India and also been consultant endodontist to various dental centres. Currently, he is working as a faculty in AIMST University, Malaysia. He was awarded the Fellowship of International College of Dentists in 2016 and has many papers to his credit. He carries out different training programs in Endodontics regularly.

About the Program:

It will be a full day interactive workshop, that will be conducted on two separate dates: 11 September 2022 (Saturday) and 12 September 2022 (Sunday). This workshop will also give an opportunity for the participants to use operating microscope.

Registration is open to dental practitioners and students. To register, fill in the details, tick at relevant boxes and send the full name, scanned copy of this form and bank in proof to **endoaimst@gmail.com** by 7th September 2022 (early bird); [late bird registration will include additional RM100]

Full Name: _____	Clinic: _____
Date chosen : (tick one) 10 SEP'22 _____	or 11 SEP'22 _____
Registration fees:	
<input type="checkbox"/> General dentists RM 580	
<input type="checkbox"/> AIMST Alumni RM 470 (AIMST student Reg no. held during BDS: _____)	

Payment to AIMST Sdn.Bhd. A/C 2 CIMB Bank, Account number: 8006376336
• 2 Breaks and 1 Lunch included with registration

Objectives & Learning Outcomes!

A. ENDODONTIC DISEASE

1. Review of principles involved in Endodontics
2. Endodontic diagnosis
3. Access designs
4. Single visit endodontics

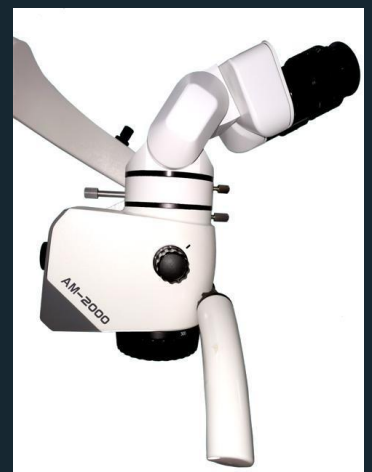

B. ENDODONTIC TREATMENT

(mostly covered during demonstrations as well as hands on training)

1. Role of disinfection, coronal and apical seal of root canals
2. Latest technique of cleaning and shaping after glide path establishment: effective and safe use of rotary files
3. Do and don't of using a modern apex locator
4. Criteria of selecting a good rotary file system
5. Use of 2Shape motor driven rotary file Vs manual rotary files to shape the canals, Safe and fast shaping of canals, saving on time and energy
6. Dealing with calcified and curved canals; recapitulation
7. Debridement and disinfection of canals
8. Three dimensional obturation of root canal system: quick and efficient
9. Locating the extra canals/missed canals
10. Use of magnification (microscope and loupes) in routine endodontics
11. Use of ultrasonics in Endodontics

Program

08.00 am	Registration and Welcome speech
08.30 am	Lecture -1 :Shaping Concepts
09.30 am	Tea Break
09.45 am	Discussion-1 on instrumentation
10.00 am	Demo and Hands-on exercise -1: Ultrasonics in refining access cavity, hunting MB2 under Microscope and Shaping with UDG files
11.30 am	Discussion -2 on 3D Obturation
11.45 am	Demo and Hands-on exercise -2: 3D Obturation
12.45 pm	Lunch and group photo
01.30 pm	Discussion -3 on instrumentation 2 : Glide path preparation and shaping with 2Shape
01.45 pm	Demo and Hands-on exercise- 3: Using Endoflare, G-File and 2Shape
03.30 pm	Coffee break
03.45 pm	3D Obturation session cont. 2
05.00 pm	Discussion, Q&A Part
By 05.30 pm	Awarding of Certificates and Lucky Draw
